Nigel - can I log my comments formally with you as Kayleigh suggests below.

Whilst I have no objections to the concept of the building changes .. there are several issues that need to be resolved with the design .. the blocking of the entrance by massive gates (which have been erected without permission)...and the fact that the building is prone to flooding and the failure of the owners to resolve the rights of way across the land.

Are you allowed to DEMAND some form of mediation between all of the residents ?

To Graham,

Thank you for your emails attached. Just to make you aware I am not the case officer for the above but am a consultee (I have been asked to comment on the application from a design/heritage perspective). If you have any comments to make on the application you should formally submit them to the case officer Nigel Catherall ([nigel.catherall@broads-authority.gov.uk](mailto:nigel.catherall@broads-authority.gov.uk)) for his consideration.

Kind regards,  
Kayleigh
