Dear Mr Catherall,

I have a few comments to make re the above planing application as it adjoins my property and is part of one of Bungay's loveliest areas.

As far as I can understand it there are no plans to alter the window of obscured glass that 'looks' into my garden. I hope this remains the case and that any structural work on that wall which gives straight onto my property will be in keeping with how it looks now.

I do think it would be sad to install so many roof lights into the rather beautiful old pantile roof at the rear of the property.

It is rather special site by the river and sensitivity to the natural surroundings situated as it is opposite Falcon Meadow is important I feel. It would be a shame if what used to be more in keeping with those surrounding became more like a car park.

With many thanks for your attention,

Yours sincerely

Frances Mann
